I am Sydney based visual designer. After I finished my business degree in University, I realised that I am more passionate about creating. Shillington has given me the opportunity to discover the design industry and learn skills. I am still willing to have more chances to learn and follow my design directions.

### ABOUT ME

I am Sydney based visual designer. After I finished my accounting degree in university, I realised that I am more passionate about creating. Shillington has given me the opportunity to discover the design industry and learn skills. I am still willing to have more chances to learn and follow my design directions.

Drop me a message and let's create something great together.
